Harlemites Give Great Display of Basketball

To write up a Basketball game like the one in the Opera House Monday night is a task and a pleasure at the same time. To say just what one would like to say and say it in a manner that none would take offence is a question, and we hope that no one will feel too bad if we don't say just what they want to read.

Those colored boys knew their basketball, and when they got the ball they kept it, as a rule, just about as long as they wanted it. The locals had their shooting eye on and banged the hoop with great regularity when they had possession of the ball, but when the Harlemites needed a few points to even up the count it didn't take long for them to get them. The one-hand passing and their immediate delivery of the ball as soon as they received it rather than the locals at their wits end and the last few minutes of play the display of passing, without scoring, that the visitors, was simply dazzling in its speed and precision. One remark of one of the Jacks just about tells the story. A spectator yelled "Why don't you do something," and the player in good sportsmanship said, "Yes what in the h— would you do."

The hall was packed with spectators from all over the south, there being in the neighborhood of 700 in the building and 200 additional refused admittance because of lack of room. The display was interesting from the start, was just about what everyone looked for, and we believe the Jacks picked up several ideas that when worked into their plays will make them a harder team to beat than they are now, and to date they have proven plenty tough for most of their opposition.

The score at the final whistle was 45-37, but from the way the Harlemites scored when they shot we think might easily have been many more if they had so desired. However, the Jacks took it in real sportsmanship, and toward the last when the ball was whizzing around from one of the visitors to the other, some of the boys got laughing so hard they couldn't have held the ball if it had been placed in their hands. Such was the spirit of the game and between the teams. The Harlemites will always be welcome in Raymond.

The Terrible Swedes play here on Feb. 18th, and probably in March sometime, the Swedes and Harlemites will come together in an exhibition game here. And say, would that be some game. Two of the fastest teams in the game.

Playing as a preliminary to the exhibition game between the Harlemites and Jacks, the Idlers and the Stirling Giants played a regular Intermediate League game, the score at the final whistle being 48-34 in favor of Raymond. It was an interesting game and the Giants made the locals work for all the points they obtained. Two players, one from each team engaged in a loving match for a few seconds, and the referee put both of them out of the game.

Don't forget that we have a full assortment of Typewriter ribbons in stock at city prices, and can supply your wants in this respect.

Beautiful weather over the weekend with a nice warm Chinook working, has been enjoyed by everyone after the cold weather which prevailed pretty much all of the time from the first of the new.

News Notes

Mr. and Mrs. Lowell Court and Burrell Dilley were in Magrath on business on Friday.

A very important meeting on Social Credit, Friday night in the High School. BE THERE.

Mr. and Mrs. Jas. Hamling of Tyrell's Lake were Raymond visitors on Tuesday.

The mild weather has been the cause of numerous colds, although very little really serious illness is reported.

Loren Hancock who has been working in the New Dayton district was home for a few hours Tuesday.

A number of the High School students presented an interesting little dramatic sketch in the Second Ward-M. I. A. Tuesday night.

Mr. and Mrs. D. A. Watson and family moved to Baintree Wednesday, a large truck taking their household furniture from here.

Our Want-ads. always get results. When you have anything you want to buy, sell or trade, why not try one of them and see how good they work.

Morris Bullock has a new 1935 Plymouth Coach which he took delivery of this week from the Imperial Motors of Lethbridge. It is a real nice looking car.

Louis Brardley was a visitor from Edmonton over the weekend with W. F. Russell and B. R. McMullen on business for the Beet Growers Association. He returned to Raymond on Monday.

With the days becoming larger and the warm weather everyone's thoughts are turning to gardens and spring work and the campaign is getting organized in the mind at any rate.

Mr. Dick, father of the Basketball players of the same name, from Calgary, was a Raymond visitor Monday last and witnessed the Basketball game between the Harlemites and the Raymond Union Jacks.

In view of the interest taken in Social Credit and monetary reform at the present time, we invite correspondence in these columns on these or other live topics of the day. Keep to the subject, and within the field of reason is all that we ask.

Boothe Card, who hurt his foot in a basketball game a week ago is still on crutches and will be for some time yet. He says his foot is getting along as well as can be expected, but is still very sore and tender.

One twelfth of 1935 is already gone. Do you think you can last out the other eleven months. Everyone is looking for a better year than 1934 but a good bit. How would it be if we would help make it come out that way.

A suggestion to the City Dads. A great deal of profitable labor could be put to work on walks and roads throughout the town, and if unemployed must be taken care of, this would be an acceptable means of keeping them employed. Mud wallowing after every thaw is not very pleasant.

Splendid Reports At Ratepayers Meeting

(Contributed)

The Ratepayers meeting convened at 8 p.m. Friday last, with a fair sized attendance. After the meeting was called to order, the Ratepayers selected John F. Salmon as Chairman, and John Powelson as Secretary of the meeting.

The Report of O. H. Snaw Sec-Treas. showing the collection of taxes, and how the moneys had been disbursed was read, and it showed that diligence had been used in making collections, as they were up over the previous year and that the Budgets of both the School Board and the Town Council had been balanced owing to the favorable conditions prevailing in 1934.

Tax collections had been 105% of the Levy, and it left some surplus in the Treasury, so that 1935 starts off with a comfortable balance which shows well in times of Depression.

Comparative figures were given for the work of the past four years, and had no obligations been due the Banks to take funds, even though the depression had hit the District hard, still sufficient had been collected in Taxes over the four year period to meet all requirements of both Town and Schools.

Paul Dahl, Sec-Treas. of the Raymond School District gave in his report the standing of the School Board, and showed that Four Thousand dollars reduction had been made on old accounts, besides paying off the current expenses of the School Board.

Some questions brought out the fact that both High School and Public School had considerable increase in Pupils, but were adjusting their conditions to meet the increase.

There were 173 pupils in the High School, and 559 in the Public School making a Total of 733 School Children in the Town, which no doubt is the Highest number of School Children in any Town in the Province.

After going over the various reports, and the remarks of the Mayor and Chairman of the School Board, general satisfaction was expressed by the Ratepayers for the splendid work done during the past year, and a vote of appreciation moved in behalf of the Ratepayers to the Town Council and the School Board for carrying on in such a splendid manner without raising the Mill Rate or increasing the taxes of the Town or School District.

News Notes

Geo. W. and Mrs. George N. Green of Lethbridge were Raymond visitors on Wednesday.

Clark Lund spent a day or two here this week with relatives.

G. G. McRae of the Mid-West Paper Sales, Calgary, was a business visitor at the Recorder office on Tuesday.

Ole's Terrible Swedes will be here February 18th, two weeks from Monday. Keep this date open.

Ralph Bras, have been busy in the ice fields this week and have been putting a good tonnage in storage.

Jack Mehew received a nasty kick on the hip while shoeing a team on Wednesday afternoon, which made him quite sick for awhile.

The Chinook has taken the ice out of most of the rivers in the neighborhood and ice harvesters depending on rivers for their supply may be disappointed.

Between 45 and 50 Scouts and members of the Lesser Priesthood Quorums of the Cardston Second Ward were in Raymond Wednesday and made a visit to the Sugar Factory and other points of interest. Ray W. Miller of Cardston had charge of the group.

A bevy of Suit Clubs both for men and women have been started lately in our town and ticket sellers for these clubs are legion in number. It is a pretty good idea, and some fellows have obtained suits real cheaply.

Headed by President T. Geo. Wood of the local Rotary Outpost, about 37 Rotarians and partners from Raymond attended the meeting in Lethbridge Tuesday evening, and enjoyed the talk of Torrie Torgeson. The musical numbers were supplied by the Raymond Club.

Weekly Editors Hold Interesting Convention

Jacks Trim Varsity 48-21

In a regular league game last Thursday night, the Union Jacks defeated the University of Alberta hoop stars to the tune of 48-21. The one-sided score was hardly an indication of the calibre of the two teams because the visitors flashed some snappy work at times, and showed promise of exceptional good basketball before the season ends.

The team work and condition of the Jacks told before the end of the game, and their passing and marksmanship at the hoop gradually widened the gulf between the two tallies with the final score as stated.

The lineup and reserves:

Varsity: Shipley, 4; Lees, 2; Anderson; Hutton; Cherrington, 9; Imrie; McIntyre, 6; Richard Woznow; Kiewell, Total 21.

Jacks: O'Brien, 11; Kirk, 6; West Nilsson, 4; Fairbanks, 14; Turner, 13; Nader, Total 48.

Nomination Will Take Place Monday

Hear Ye! Hear Ye! Nominations in the town of Raymond for a Mayor, three Town Councillors and two Trustees will take place Monday, February 4th, 1935 at the Town Hall, Raymond, nominations closing at 12 p.m.

By way of advice we would suggest that you don't wait until 11:55 Monday to get the candidates name on the dotted line. He may not be home when you go after him. Get the slate lined up early enough that there will be no disappointments.

The terms of Mayor W. G. Peckas, and Councillors M. T. King, W. H. Zebell and T. K. Robert is expiring on the Council and Trustees C. E. Tolleson and D. C. Selman on the School Board.

Conference Saturday and Sunday

Quarterly Conference of the Taylor Stake of Zion will be held in Magrath on Saturday and Sunday, this week, February 2nd and 3rd at the Assembly Hall.

It is expected that President Judger Clawson, President of the Twelve will be here for both sessions, and a large attendance is expected if the weather remains favorable. We understand that considerable business will come before the Conference.

Literary Meet

The Literary Society met at the home of Mrs. C. R. Wing, joint hostess Mrs. R. S. Orgill. After some discussion it was decided to buy the set of books "Lands and Peoples" with the "Book Lovers Score" for the use of the two clubs.

A vote was taken, and the membership number was raised to twenty two. Four applications for memberships was accepted. They were Mrs. Rayo Wolf, Mrs. Thelma Merrill, Mrs. Blanche Scoville and Mrs. Jennie Stone.

The lesson of the month was given by Mrs. Orgill. It included the History and Geography of Czechoslovakia and Yugoslavia. Mrs. Snow reviewed a short story of Yugo Slavia. Special guests were Mrs. Kitchen, Mrs. C. D. Connon and Mrs. Fannie Litchfield.

It was the privilege of Mr. and Mrs. Editor to attend the Annual Convention of the Alberta Division of the Canadian Weekly Newspaper Association at Calgary on Friday and Saturday of last week, and to say that it was a success putting it mildly, it was an outstanding success.

Four sessions were held, and in these sessions points of newspaper practice and its difficulties were discussed in open forum. The question of sustained advertising at home and from outside was a problem with all the papers, and as usual the cut throat competition of the city shops is the thorn in the flesh of the men in the small towns who are trying to get by and to give their community a paper that its people may be proud of.

Everything was well arranged and planned, thanks to E. S. Duncan of Banff, Past President, known to most Raymond people and his able executive, and according to all present, this was the best Convention held for a long time, and should be productive of a great deal of good.

The management of the Palisier Hotel granted the use of one of their large rooms for the Convention sessions, and during the time, the Mid-West and Barber-Ellic Company, wholesale paper dealers were hosts at one banquet, and the Grain and Milling Advertising Service, and the Grain Companies at another, at which the editors had a chance to meet some of the men they have known through correspondence for years.

Dean Howes and Hon. J. Russell Love, Provincial Treasurer were amongst the speakers, and others who contributed to the educational features of the Convention were Colin G. Groff, L. D. Nesbitt, Col. J. H. Woods, Mayor Andy Davidson Calgary, and many others, addressing the editors on a variety of topics, from devilling in the Print Shops years ago to Social Credit and allied topics all in all it was a busy and interesting two days.

Officials elected for the coming year are:— H. G. Thunell of Viking president; G. C. Dunham, of Drumheller, first vice-president; and H. T. Halliwell, Coleman; H. T. Belts, Hughson; D. C. Jerom, Macleod; F. P. Galbraith, Red Deer; C. L. Dunford, Oyen and W. Conquest, Athabasca directors. H. G. McCrea of Hanna was re-elected secretary-treasurer by acclamation.

NEWS NOTES

The kids are getting all excited now over Valentine Day and colored paper is finding a good use in the making of numerous valentines.

Mrs. T. A. Anderson of Cardston returned home today after spending three weeks with her daughter Mary at the Mammoth School.

Ole Olson seemed to enjoy the game Monday night about as much as anyone else, despite the fact that he has seen the colored boys perform many nights in a string.

Roads from Spring Coulee to Cardston were wet and heavy Thursday night when the frost came out of the ground and the tracks filled with water.

Don't forget Nomination Day Monday February 4th, with the papers closing at 12 noon. A Mayor, three Councillors and two Trustees must be elected. Who will they be.

THE ISSUE OF THE HOUR

We wonder just how much thought and study the people of our town are putting to the issues of the hour in the town, province and Dominion. Within the next three or four months, probably, there will be three elections, when officials in each of the three divisions of our government will be elected.

We have probably said enough in recent weeks regarding town elections, except possibly to add that Nomination Day is Monday next, February 4th, election day the following Monday Feb. 11th, and a Mayor, three Councilmen and three Trustees to elect. Who will they be? Will we be satisfied, or will we spend the next year finding fault as we are so prone to do? The answer Mr. Ratepayer is up to you.

Respecting Provincial elections, there will be a problem confronting every voter in deciding which party to lend his support to. Social Credit has been in the limelight for some months in our fair province. Abernethy and his radio talks have stirred up a great deal of enthusiasm over this subject, but the real question is "Do you understand it sufficiently to explain it to others, and to recognize it as a part from all the disguises in which it will appear during the election campaign. We do not wish to be misunderstood in this statement. While personally we may, or may not, favor Social Credit we are not trying to force it down the throats of our readers. We merely mention it, because in all the primaries so far held, it has held the spotlight, and every party has pledged itself to some sort of

monetary reform. Some politicians tell us today that we have Social Credit. Have we? What is your reaction to this statement? Are you satisfied with our present system? Do you think we need a change? What sort of change do you want, or are you among the ones that do not care? All these items will have to be answered, and all of them demand study, thought and reflection. Whether you give them attention or not is your matter. They DEMAND it, and the intelligent voter is the one who will be in possession of the facts.

In federal politics there is a situation seldom experienced in previous battles of this sort. Prior to the present session of Parliament the Honorable R. B. Bennett in a series of Radio talks pledged himself to a number of very drastic and very unexpected reforms. In fact he left the opposition practically without a leg to stand on. It is likely that considerable in the interests of Canadians will grow out of the present session of the Dominion house. Are you in touch with developments so far? Are you interested?

What is your franchise worth to you? Some of the bloodiest battles of the ages have been fought over freedom of thought and speech, and yet many are too many of us, are so indolent that when we vote we vote because of our likes or dislike for so and so, and not because of any knowledge or appreciation of what he or his party stand for.

Deal Mendenhall is getting around again, though still very shaky, after his recent operation.

The road from Lethbridge to the Welling turn was very wet and nasty Monday. From Welling on in where the snow had blown off, it was nice and dry.

People were present at the Basketball game Monday evening from all over the Southern part of the Province, some of them driving as far as 75 miles to see the display. All we can say is that we think it was well worth that long a drive to see.

REPORT RE CONFERENCE OF RETAIL MERCHANTS ASSOCIATION SECRETARIES REPRESENTING THE PRO- VINCES OF MANITOBA, SASKATCHEWAN, AL- BERTA AND BRIT- ISH COLUMBIA.

Officially endorsing the Retail Trade Federation of Canada with the approval of the respective Boards of the Retail Merchants Association of Western Canada, the Provincial Secretaries representing Manitoba, Saskatchewan, Alberta and British Columbia at a Conference held in Winnipeg from January 7th. to 10th. inclusive, authorized Mr. G. S. Hougham, Provisional Secretary of the Federal who was in attendance, to convey to the Eastern Groups now affiliated that the merchants of Western Canada would co-operate whole heartedly in the plans now being considered by the Federation, and which provide for the co-ordination of effort on the part of all retail groups to bring before the Prime Minister recommendations relative to retail distribution and in accord with the Governments announced programme of National Industrial and Economic Reform.

The Conference also considered the recent opposition registered by the Provinces of Quebec and Ontario to the proposed amending of the British North America Act and which it is generally agreed would be Government could enact a Federal Minimum Wage Law, regulation of the hours of labor, or apply a uniform system of control in regard to distribution of merchandise.

Premier Taschereau speaking for himself and the Quebec Legislature, referred to the Federal Governments proposals as a usurpation of Provincial authority which would be resisted by all Provinces of the Dominion, he also stated that the Province of Quebec would resist to the limit any move on the part of the Federal Government to interfere with Provincial Legislative prerogative.

The Hon. Mr. Heburn, Premier of Ontario in a public statement also objected very strongly to the Dominion Government invading Provincial jurisdiction.

enously to the Dominion Government invading Provincial jurisdiction.

In view of the constitutional difficulties confronting the Federal Government in any plan of Dominion Wide control, it was unanimously agreed that each Provincial Board of the Association in cooperation with other Organizations should immediately interview their respective Provincial Governments in order that enabling Legislation might be enacted by the Western Provincial Legislatures making it possible to apply the necessary regulation in each Province in conformity with a Federal Act which may be brought down by the Federal Government at the approaching Session of Parliament.

The Retail Merchants Association of Canada being the most representative of all Retail Trade Groups has taken the initiative in organizing the National Retail Trade Federation. The Head-office of this Organization is at 502-Hope Building, Ottawa, and within the next few weeks definite recommendations will be submitted to the Prime Minister and Members of Parliament which it is hoped will be adopted and embodied in a Federal Act.

Insofar as the Province of Alberta is concerned, the main objection voiced during the past year to the Alberta Trade and Industry Act was largely on account of the Alberta Government having no power under this Act to regulate inter-Provincial Trade and it was pointed out very forcibly by those who expressed their opinion that while the Provincial Government had full power to apply this Legislation to business within the Provincial boundaries, it would be detrimental to the best interest of the Province were such regulations applied without some control being exercised over goods shipped in, or out of the Province of Alberta.

The Natural Products Marketing Act and the Farmers' Creditors Arrangement Act passed at the last Session of the Dominion Parliament are now being administered through the Provincial Governments co-operating, enabling Legislation having been passed by each of the Western Provincial Legislatures. The National Retail Trade Federation is of the opinion that if the same principal is adopted in regard to the Dominion Government's programme for Economic Reform, it would make possible a Dominion Wide Law without disturbing the present position of the rights of our Provincial Governments, provided under the British America Act.

THE FIRST REAL CANADIAN MONEY

History relates that Canada, in 1817, "was too poor to afford the luxury of a metallic circulating medium, and the development of trade and agriculture was hampered by the lack of facilities for exchange."

American money, also British and French and some Spanish and Portuguese, was used—all subject to fluctuating rates of exchange and causing monetary confusion. There was no Canadian money, either coin or paper.

But in 1817, when the Bank of Montreal was started, its directors—merchants who knew what Canadian business urgently needed—immediately provided a paper currency (the Bank's own bills in small denominations) and later copper coins. These Bank of Montreal issues were the first real Canadian money.

Through 117 years since then, the Bank of Montreal's notes have performed a useful function. Canadian business has grown from small beginnings to its present extensive proportions. These notes have provided a sound, dependable and elastic currency, their volume automatically expanding and contracting with the changing demands of trade.

Notes of the Bank now in circulation amount to \$35,000,000, or about one-fourth of the entire commercial bank note currency of Canada.

The Bank's resources (\$759,000,000) are likewise about one-fourth of the total resources of the Canadian commercial banks. These figures indicate the extent to which the Bank of Montreal participates in Canadian business activity.

WEEKLY LETTER

HORSES

Your writer for this week has chosen as his subject, horses, man's faithful servants. This topic is prompted by the parade of horses which passes in review on the highway in front of our windows in the ordinary course of events. It causes us to become critical at times, but more often to wonder whether our farmer friends as a whole have given serious consideration to this subject which after all is very vital to their success as farmers.

In this parade of horses, which passes by, ample opportunity is provided for a comparison of teams and their ability to do the work which is required of them. Two things in particular are evident in a great majority of cases; the lack of size and strength in the horses, and the lack of proper care on the part of their owners. We try to believe that the latter condition is due to lack of knowledge rather than inherent carelessness and that the former condition is due to lack of study of the problems involved.

First of all, let us study the question of desirable size in a farm horse. Power and very cheap power, is the by-word of economical production and this can only be provided by an efficient power unit. We do not here wish to enter on a discussion of the relative merits of horses and tractor but rather take for granted that horses will continue as a source of farm power and then determine the cheapest type of horse to use. A comparison between horses of different sizes is provided us almost daily in our parade of horses drawing loads of hay and other materials to and from town. We see first a team, 1,100 to 1,400 pound horses, struggling along with a load, tugging faithfully with every evidence of strain, attempting to serve their owner. A few minutes later a big team, 1,600 to 1,800 pound horses, comes striding along with a much larger load and at a faster rate, but this time there is no sign of strain but rather evidence of pleasure. There is no doubt which team is the more efficient source of power.

If we look for possible reasons for the number of small horses on our farms we may find several. First among these is the low price which has prevailed during the past fifteen years or so and which has made the production of horses unprofitable. Farmers have been satisfied to buy their horse power from the ranchers and ranch horses, even of good breeding, have a tendency to be small due to a lack of feeding during the most critical winter of their development, namely the first winter. The second reason for small horses may be that a number of mares have

been bred, without the owners' consent, to grade stallions and the resulting colts have not received proper care for satisfactory development.

We would suggest that this is an opportune time for the farmers to think of their future horsepower. Present indications are that horses will be relatively expensive for the next few years and farmers will be able to raise them cheaper than they can buy them, and it is almost as cheap to raise a good horse as to raise a poor one. Government assistance is available for the formation of horse breeding clubs and it might be worthwhile for more of our farmers to get together and form such clubs. Action should be taken at once as good stallions are comparatively scarce and demand for these will be keen.

Another letter about horses dealing in a general way with feeding for growth and maintenance, will follow next week.

HOT SOUPS FOR

COLD DAYS

It is natural that our appetites guide us towards hot foods during the cold weather our bodies require the extra heat which such foods provide. Among the many hot dishes suitable to serve as the main course for lunch or supper, cream soups may well be included. Carefully made with a milk foundation, combined usually with one or more vegetables, such soups are both satisfying to the appetite and nourishing to the body.

QUICK CREAM SOUP

4 tbsps. butter
4 tbsps. flour
1 quart of milk
1 slice onion
1 tsp. salt
2 cups raw grated carrot or turnip.

Melt the butter. Blend in the flour and gradually add the milk. Cook, stirring constantly, until mixture thickens; add onion, salt and grated vegetable, and cook over hot water until vegetable is tender (about 10 minutes.) Remove onion. Sprinkle chopped parsley over soup just before serving.

CREAM OF MUSHROOM SOUP

1/2 lb. mushrooms
1 slice of onion, half inch thick

1 1/2 cups water
4 tbsps. butter
3 tbsps. flour
2 cups milk
Salt and pepper
1/4 teaspoon tobacco or 1 teaspoon Worcestershire sauce.

Wash mushrooms, peel and cut caps into pieces. Place skins and stalks out in pieces with onion in saucepan. Cover with water. Simmer 20 minutes. Strain. Melt butter, add mushrooms, blend in flour until smooth, add milk and liquid (1 cup) and seasonings. Stir and cook until smooth and thick.

POTATO CHEESE SOUP

3 medium potatoes
2 cups boiling water
2 to 3 cups milk
1 slice of onion
3 tablespoons butter
2 tablespoons flour
1 teaspoon salt
Pinch of pepper
1 cup grated cheese
1 tbsps. chopped parsley.

Cook potatoes in boiling salted water until tender. Put through a strainer. Measure liquid and add enough milk to make four cups. Scald with slice of onion. Melt butter add flour and seasonings. Gradually add potato mixture, removing onion. Cook 3 minutes. Add cheese and beat until smooth. Sprinkle parsley on soup before serving.

Here and There

Employed on railway construction 50 years ago, Thomas D. McGillivray, 83, of Edmonton, claims the distinction of having placed the last carload of dirt on the C.P.R. when that trans-continental line was completed to the Pacific coast in 1885. Despite his advanced age he still has a clear recollection of incidents on construction.

Miss Mary McNeill, superannuated in December after over thirty years on the Upper Lakes as stewardess of the C.P.R. Great Lakes Steamships, spent almost her entire service as chief stewardess of S.S. Keewatin, sailing with her every season from her maiden voyage in 1908 until the close of the 1934 season.

Fertunes are being spent on research in the science of armaments but not one penny for research in the field of disarmaments, said Prof. Julian Huxley, famous grandson of the even more famous Thomas H. Huxley, in outlining the meaning and functions of science, its shortcomings and possibilities, at the Lord Nelson Hotel, Halifax, recently.

"Our province will soon take an important place, if not the leading place, among the gold-producing countries of the world," stated Hon. J. E. Perrault, Minister of Roads and Mines of the Province of Quebec, in a recent address on "The Mining Industry of Quebec," at the Chateau Frontenac, Quebec City.

Interviewed at Victoria recently, N. R. DesBrisay, assistant passenger traffic manager, Canadian Pacific Railway, stationed at Winnipeg, said that indications pointed to a better all-around tourist season for 1935 over 1934 much improved though that year had been over previous tourist seasons.

Ski-joring behind a fast running horse; mushing with a team of huskies; skating, or skiing on the mountain trails all come under the heading of real sport, is the view of Miss Dorothy Standish who reigns as Banff Winter Sports Beauty Queen during this year's season in the Canadian Rockies.

Harry Loder, tourist, travelling along a highway near Banff by car recently, saw a golden eagle fly by the window of his car, and reaching out caught it by the neck and pulled it into the automobile. He turned the bird over to the Banff Zoo.

A forty-mile ski race, a forty-mile snowshoe race, motorcycle ski-joring, figure skating, ladies and men's hockey, championship speed skating, pony ski-joring, trap-shooting, ski-jumping and many swimming events in the warm pool, will be featured at the elaborate winter carnival at Banff on the week's programme beginning February 14.

Sailing recently on her fourth annual cruise around the world, which will take 130 days, with calls at thirty-three ports in twenty-four countries, Canadian Pacific Atlantic flagship, Empress of Britain, left New York with close on 400 passengers. She will return to New York late in May.

Honoring Captain A. J. Halley, R. N. R., who retired from command of the Canadian Pacific liner Empress of Canada after thirty-four years with the C.P.R., shipmates and shoreside friends presented him with an engraved wrist watch at a luncheon recently aboard the ship. Captain Halley left the sea with forty-four years of service behind him on the seven seas.

BANFF BEAUTY
WINTER QUEEN

Ski-joring behind a fast running horse; mushing with a team of huskies; skating; or ski-ing on the mountain trails all come under the heading of real sport, according to Miss Dorothy Standish, who reigns this year during the winter sport season in the Canadian Rockies. Visitors from many United States cities as well as from Canadian centers are enjoying all the thrills which only this area can provide, and which reach a peak during the annual Banff Carnival held this year February 12-17 inclusive.
